Reason for allowance

The following is an examiner's statement of reasons for allowance: the applicant's amendment of 03-16-06 overcomes the technical deficiencies and the prior art of record. The prior art of records (US. 5,264,738) fails to teach or fairly suggest a level shift circuit for amplifying an input signal having a first amplitude to an output signal having a second amplitude comprising first and second first and second current driving capacities, an inversion circuit having a third output terminal connected to the first input terminal and having a third driving capacity smaller than the first current driving capacity and larger than the second current driving capacity and one of the first and second input signal is an one-shot pulse as called for in claims 1 10 and 19. Therefore, claims 1-5, 7-14 and 16-20 are presently allowed.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
